

Real-World Business Benefits:

TICO is mission-driven to be the most respected provider of equipment in the port, terminal, distribution centre, logistics, and intermodal space. As a service provider, TICO partners with leading operators and transportation enterprises, adding value in their business that is not available from others.

As a manufacturer of terminal tractors, TICO leverages our unique fleet operating and maintenance knowledge to be the one true innovator for the real world. Pursuit of this mission requires steadfast commitment to TICO values.

TICO VALUES

PRIORITIES:

TICO commits everything to long-term relationships that make a positive impact on our customers.

INTEGRITY:

TICO will be a great place to work and a great company with which to do business. Every TICO team member is personally accountable. Integrity in all our dealings is essential to our long-term vision.

QUALITY:

TICO delivers the best services. TICO sells the best products. TICO customers receive the best support.

At TICO Eastern Canada, we work tirelessly to understand and support our clients' businesses, offering state-of-the-art equipment and comprehensive dealer support.

Whether looking for a 360° end-to-end implementation process, a tailored leasing program, preventive maintenance packages, new or used equipment sales, disposing of old equipment, or 24/7 genuine parts support, TICO Eastern Canada will help you build a superior business.

TICO PRO-SPOTTER

COMPETITIVE COMPARISON

Many of the elements considered standard on our TICO Pro-Spotter, are not even offered by other manufacturers. Here's how we stack up against the competition.

TICO PRO-SPOTTER STANDARD EQUIPMENT				
CAB	TICO PRO-SPOTTER	KALMAR T2	CAPACITY SABRE	AUTOCAR XSPOTTER
Large reinforced composite cab is strong, and corrosion proof for increased long term value.	✓	▽	▽	▽
Automatic rear door, which is 27 inches wide by 66¼ inches tall, and provides fast and easy entry and egress via a bi-fold door activated by a dash switch. This feature increases productivity with numerous door operations per hour in your real world business.	✓	▽	▽	▽
Power up and down driver side window allows for fast and easy operation.	✓	▽	▽	▽
All metal dash that is strong and durable. The controls used the most by the operator are within easy reach for all driver profiles.	✓	▽	▽	▽
Toe guard under the step reduces the risk of a driver tripping.	✓	▽	▽	▽
Heater and air-conditioning components are easily serviced from the front of the cab via an access panel.	✓	▽	▽	▽
Cab power distribution centers (PDC) are located inside the cab and accessible through front access panels.	✓	▽	▽	▽
Cab pivot bushings can be serviced with the removal of cab parts from the front with the cab down. They are designed to absorb energy in case of frontal impact to reduce damage to the cab.	✓	▽	▽	▽
Joy-stick electronic boom controller is much more durable than mechanical boom controls, thereby reducing maintenance time and cost.	✓	▽	▽	✓
4-Point dual air bag suspension and cab stabilizer with easy-to-maintain cab pivot bushings, keeps the cab from twisting for longer life.	✓	▽	⊙	✓
Wiper motor and assemblies are located overhead and accessible from inside the cab via a removable access panel for much faster servicing.	✓	▽	✓	✓
Hour meter is mounted on the side of the cab (protected by the standard cab steel rub rails) making checking engine hours much faster.	✓	⊙	▽	▽
Cab side rub protection made from steel is standard minimizing any damage to the cab when operating in those really tight situations.	✓	⊙	⊙	▽
TICO Pro-Spotter offers a tilt steering column providing every size driver improved comfort.	✓	⊙	⊙	⊙
Noise, Heat and Dust abatement system minimizes the amount of dust and heat from entering the cab.	✓	⊙	⊙	⊙

ENGINE	TICO PRO-SPOTTER	KALMAR T2	CAPACITY SABRE	AUTOCAR XSPOTTER
External radiator surge tank can be viewed and serviced without raising the cab. All fluid checks are done from ground level without raising the cab.	✓	▽	▽	▽
Air filter and filter minder can be accessed easily from ground level without raising the cab.	✓	▽	▽	▽
Pro-Spotter Cabs have an ignition and several auxiliary electrical hookups to easily supply power for electronic devices. The right portion of the dash is designed to hold a computer.	✓	✓	⊙	✓
FRAME				
TICO Pro-Spotter utilizes 100% U.S. content and has the strongest, most durable frame in the industry with continuous welds that minimize flexing and increases the life of the truck.	✓	▽	▽	▽
Strongest boom in the industry with continuous welds and 1½ inch side rails for increased life and strength.	✓	▽	▽	▽
The Bumper is mounted 7 inches in front of the face of the cab for more protection from frontal impacts.	✓	▽	▽	▽
TICO's curb side fender is a bolt on design to absorb impact, while protecting the cab and can be replaced with 4 bolts in case of severe impacts.	✓	▽	▽	▽
Large 65 gallon step diesel fuel tank is standard requiring fewer fuel deliveries and costs, while at the same time maximizing up-time. The patented fuel tank steps are very deep, providing easier entry and egress.	✓	▽	▽	▽
Shut-off valves on the hydraulic tank eliminates having to drain the tank before performing repairs. These shut-off valves are located on the inlet and outlet ports on the inward side of the tank for protection.	✓	▽	▽	▽
20 Gallons per Minute (GPM) engine mounted hydraulic pump allows for faster lifts and longer life.	✓	▽	▽	▽
External trailer air manifold and electrical connections are on the cab protection bar for easy access and servicing.	✓	▽	▽	▽
Large Diameter Grab Handles for secure entry and exit into/from the cab.	✓	▽	▽	▽
Fifth wheel release with trailer interface does not allow the disengagement of the fifth wheel jaw locks while the trailer is moving. Disengagement can only occur while the trailer brakes are set.	✓	⊙	▽	▽
Front suspension springs are rated at 14,500 lbs. for increased durability.	✓	⊙	✓	✓
LED lighting reduces maintenance due to extended life of LED in a harsh environment.	✓	⊙	✓	✓
5-inch lift cylinders with a 20 GPM engine mounted pump eliminate the need for a PTO and provide the power you need and lifting speed for any weight load.	✓	⊙	✓	✓
Twenty degree pick up ramps with 4 inch wide skid ramps result in smoother trailer pickup and reduced shock loads.	✓	✓	▽	▽
TICO PRO-SPOTTER OPTIONAL EQUIPMENT				
CAB				
Optional LED headlights for reduced maintenance and longer life.	⊙	⊙	⊙	⊙
Optional front and rear cameras provide unsurpassed visibility.	⊙	▽	▽	▽
FRAME				
Optional Galvanized Package for the ultimate in corrosion protection and, when combined with a composite cab, provides the best corrosion protection in the industry.	⊙	▽	▽	▽
